

MEMBERSHIP AT A COMPETITIVE PRICE!

NASW dues are set at the National level. Unlike many other professional membership associations, NASW requests no additional state or local levels dues. One fee automatically associates NASW members with national, state, and local levels of service. NASW members enjoy unlimited access to networking, programming, trade journals, liability insurance, career development and much more for, in some cases, half the price of what other professional membership associations charge for national dues alone.

SEE FOR YOURSELF...
