

Welcome to NASW/Texas!

Much of our work is done electronically – here is what you need to get started!
Passwords, etc. How to login, etc.

- There are 2 kinds of passwords you will use –
1. Login password which you will set yourself
 2. Secure password - **VLP**

Logging in for the first time:

Your user name is your First and Last name, first letter of each capitalized,
no spaces. (Example: JohnDoe)

If your last name is hyphenated, your user name will be, for example, JohnDoe-Deer.

Your temporary login password is NASW-TX. You will be prompted to change your password after the first time you login.

ONLY CHANGE YOUR LOGIN PASSWORD from NASW-TX to one of your choice.

DO NOT CHANGE YOUR USER NAME.

Certain pages request an additional secure password. The password required is:
VLP, meaning (*V*olunteer *L*eadership *P*assword).

My user name is _____ (write it down)

My login password is _____ (write it down)

The secure password is **VLP**

Those 3 things are all you need for full access!
